

Latest improvements to the Microsoft 365 roadmap

August 2020 update

More product filters, simplified

- Added more products
- Updated some product names
- Removed subcategories, so all products are listed in one alphabetical list

Filters

Products

- Access
- Azure Active Directory
- Azure Information Protection
- Bookings
- Compliance Score
- Cortana
- Delve
- Excel
- Exchange
- Forms

Showing 882 updates

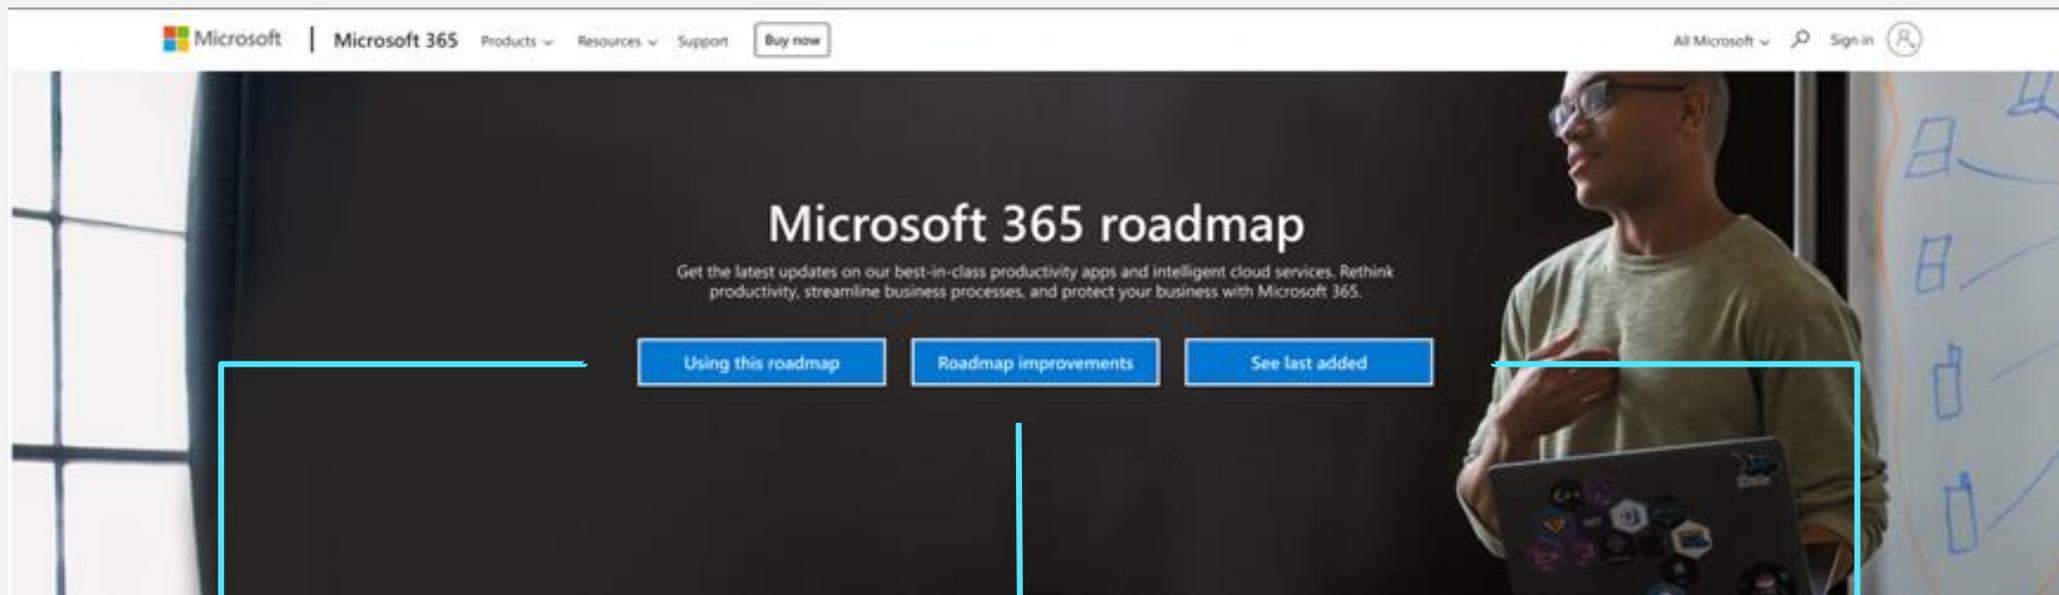

Description

SharePoint: Enabled

OneDrive: Full-fid

Updated header to help you get to what you need, faster

To help you use the roadmap and interpret its data

To show you the latest changes to the roadmap site

An easy way to see what's new, for those who check back often

Release phase filters for Microsoft Edge

- Added Microsoft Edge release phases "Beta Channel" and "Stable Channel" as options in the filters

Filters
