

Secure your digital workforce with Windows 11 Enterprise and Microsoft Intune

Windows 11 customers can expect as much as 394% return on investment.¹

Haunted Hardware

The Pit of Inventory Despair

PLAN

Give your digital workers a more robust hardware baseline.

- Hardware Root of Trust that ensures modern Windows 11 devices boot securely.
- The visibility you need into device and app compatibility with Intune.

86% of Security leaders agree that outdated PC hardware leaves organizations more vulnerable.²

Regulatory Rapids

DEPLOY

Use the cloud and automation to save time and protect endpoints.

- Zero-touch deployment with Windows Autopilot and Intune.
- Automated upgrades with Windows Update for Business deployment service.
- Serverless, Zero Trust-ready cloud print with Universal Print.

"Device deployment and provisioning using Autopilot, including document migration, saves several hours per device implementation."³

Onboarding Beach

SECURE

Get out-of-the-box security that complies with Zero Trust requirements.

- On-by-default operating system security controls.
- Application Guard keeps business data protected and private.
- Set risk-based Conditional Access and app-based conditions with Intune.

"They have added robust network and system security control sets and safeguards that would at least prevent a large number of viruses and malware that we see."
