

DT Group is the largest retailer and distributor of building materials in the Nordic region, with more than 250 stores and 5,700 employees across five countries. The company's customers include major contractors, distributors, builders, and consumers.

"The initial implementation of Project Online took very little time. We started with the portfolio management part and got the overviews that we wanted. Many project managers were familiar with the tool, and getting the collaboration sites to the project was a great advantage to them."

Claus Paulsen,
CIO, DT Group

SITUATION

DT Group wanted to improve its portfolio and project management capabilities to increase overall efficiencies. The company deployed Microsoft Project Online to reduce manual Excel inputs, promote more transparent financial management, and be better equipped to prioritize projects.

BENEFITS

- Better overview of progress of projects, tasks, and running resource costs on portfolio level
- Increased productivity and time saved with reduction in manual processes
- Improved resource and capacity overview
